Message From National President '93

Chance to lead, opportunity to learn

A year ago, I took my chances to become the National President of the Hong Kong Junior Chamber of Commerce. At that time, I had no idea what this choice would offer me. On the surface, I could only expect a very hectic year ahead. Back in my mind, however, I knew I had made the right choice and my future encounter would bring new insights into my JC career. I knew for sure that I would eventually come out a better person although I was unable to foretell the benefits of being the leader of the JC clan. Neither was I able to think of these benefits at the beginning of my term of office when events took place one after another immediately ofter I had sworn in office.

As predicted, I led a busy life as the National President over the last twelve months. I came across numerous events, met numerous people and encountered numerous problems. Some events were extremetly exciting whereas some mundane. Some people were colourful characters but some boring souls. Some problems were difficult to tackle but some were pieces of cakes. In all cases, I thoroughly enjoyed the experience in that I got the chance to appreciate the different facets of human nature, the art of motivation, communication and above all, the art of leadership. I also came to realize that one had to practise leadership, both in the hard way and the easy way, to qualify as a true leader. The ability to survive challenges and hardships is a prerequisite for quality leadership. I am glad I have grabbed the opportunity to head the organization and gained a wealth of knowledge and experience to prepare myself for more important tasks like serving JCI.

A National President is the Chief Delegate representing a NOM and plays a vital role in the development of Junior Chamber International. Once I took over the job, I was made accountable not only to the General Assembly of the Hong Kong Junior Chamber of Commerce, but also to JCI in upholding its objectives, supporting its activities and contributing to its development. During the year, I had on many occasions participated in activities co-ordinated at the international level and these encounters were absolutely eye-opening. In these activities, I saw countless opportunities for young people like me to widen their perspective in life while getting involved in global matters. I also witnessed the spreading of the JC movement worldwide and its impact on the global communities. This was also the reason why I chose to become a member of the JCI team of officers. I wanted to share my knowledge and experience with other young people in this world so that together we could make it a shangri-la for all. I could never be part of this global game if I had given up the chance to lead the NOM> Once I was in the position, I was licensed to play a key role in global development and I have no regret for taking up the post.

While my journeys to various countries opened the door to learning excursions, they also made way for global fellowship. Of all the people I had met in these trips, I found in them genuine friendship despite our differences in sex, race or religion. We might not speak the same language but a simple friendly gesture of holding hands or smiling closed the gap. When I tried to update my mailing list, I was amazed to find the list lasting much much longer than I could imagine. Greetings came all over the world in this festive season and I have good reasons to celebrate during this Christmas!

I have even better reasons to rejoice amongst all festivities as I have not only managed to cultivate friendship with my overseas counterparts, but also my colleagues at home and members of the Hong Kong Junior Chamber of Commerce. During the year, I made myself available to almost all local functions and rendered support to LOMs in whatever forms they wished for one very simple reason, i.e. a leader must be caring to bridge any possible gaps between him and his followers or peers. If I

Message From National President '93

had chosen to keep a distance with general members, I would not have the opportunity to relate my concern for their personal development in this organization or to put NOM's objectives and policies in the right perspective to guarantee continuous growth. I took pleasure in meeting members in a formal setting or over a cup of tea dicussing LOM development, news headlines or entertainment because I could learn a lot about members' expectations and aspirations in these exchanges. I could also share these conversation with my officers so that we could introduce positive changes to our organization. On the side, I had made use of the opportunities to become a more eloquent and convincing speaker as well as a tactful commander.

The benefits of being a National President, as you may appreciate from the above paragraphs, are plenty. However, I would like to stress that the National President is not the only person to benefit from the job. The other National Officers can also enjoy similar benefits provided they make full use of their opportunities. Once you get hold of any opportunities, do not just sit on them. You have to explore them, develop them and act on them. I would also suggest NOM officers to reach out for the opportunities available in this organization than waiting for them to come before you. Afterall, this is a competitive world and the active ones shall always rule! Just remember this - you'll have a chance to lead but first you must grab the opportunity to learn.

Throughout 1993, I felt great to be the National President. I enjoyed every JC event and the company of all members. Of course, I am also grateful for having you supporting my term of office. I shall always cherish the experience and the friendship I made in you. May all your wishes be come true in the year to come.

Message From National President-Elect '94

Work Towards Synergistic Impact

Over the 43 years of its existence, Hong Kong Junior Chamber of Commerce has carried out a lot of good deeds for the community. However, as our society evloves, there are more and more clubs, associations or agencies doing similar community service and training as we do. We have got a lot of competitors these days. Most of the Jaycees projects and activities have good quality but probably we need more consistent approach as well as co-ordinated efforts to bring out the impact.

We are heading for the right direction but we want to do more "Your concern,

our concern" is the slogan of the 1994 Executive Committee. Hong Kong Jaycees are a big family and we want everybody to remember and to adopt the "Total Impact" approach by working together for the Jaycees movement in Hong Kong.

In 1994, there are four main areas which we will focus our attention.

Firstly, we would like to develop ourselves into professional trainers and train both internal and external organizations. Our Training Development Committee has done a lot for us and we want them to continue especially in terms of training of trainers as well as inter-actions with external organizations.

We are going to maintain the connections we have established and cultivate new owes, such that there will be more and more external recognition. An attempt will be made to set up a public relations committee to handle longer-term relationship with the government, the organizations from China and the media.

Members are actually the only real assets we have so we are dedicated to run an effective system in terms of Membership recruitment, training and maintenance. The goal is to let our members enjoy and be proud of being a Jaycee. The Prospective Member Orientations (PMO) and Propective Member Trainings (PMT) initiated in 1993 more to be very effective and they will continue. A special committee will be set up to improve on current practice and provide guidelines.

A basic, tedious but also very important aspect of our organization is the Chamber Office administration and operations. No matter how brilliant our ideas are, pitfalls at the operations level will easily let us down, We have planned to acquire new office equipment and improve the morale as well as career development of our full-time staff.

I have mentioned "Total Impact" and the Major Emphasis Theme (MET)project will be the best demonstration. A preparatory working Committee comprising of representatives your every Chapter have discussed and come up with a brilliant proposal. It is going to be a project where all the Chapters will participate from the very beginning and until the very end.

Before closing, I must thanks all our members and especially all 1993 the National Board Members for their outstanding contributions. This new endeavour of a souvenir issue of the "Harbour Lights" is yet another good example of their continued support. With such solid foundation, let's work together to bring out the synergistic impact.

Kowloon Jaycees President '93 - Lee Chi Keung

1993 was a Jaycee Year too memorable for me to forget. Not only was it a fruitful year for Kowloon Jaycees in organizing a few new and reasonably successful projects but more importantly, saw the development of a stronger team spirit and maturation of members and their eventual taking up of leadership roles of the Chapter in 1994. These could not be accomplished without the dedicated efforts of Board Members and members alike as well as the unfailing support by the senior members. I would like to particularly salute my Presidential Advisor PNP Senator Andrew Wong who enlightened me a lot on being a Jaycee leader. "What lies behind us and what lies before us are tiny matters" once said by one dynamic JCI Trainer Zig Ziglar, 'compared to what lies within us'. It is true that we are the only ones who can use our abilities to the limit and it is an awesome responsibility for all newly elected leaders of this organization in 1994.

Island Jaycees President '93 - Albert Ng

1993 is really an challenging year for me. Despite of serious lack of manpower in organizing projects, the Board also faced a lot of problems due to some Board members have heavy engaged in their day time work. However, I still appreciate to some Board members who sacrificed their time and contribute to the success of some formal projects. I also would like to take this opportunity to thank for some senior members and my Presidential Advisors for their guidance and support especially in my difficult time. Anyway, 1993 is nearly approach to the end. Under the capable leadership of President Elect Nelson Fung, I believe Island will have a fruitful and successfully year in 1994.

Queensway Jaycees President '93 - Amy Leung

To be a JC member, I have lots of chance to learn. To be a LOM President, I have much more chance to learn. In deed, it is a unforgettable experience to be a "P". In 1993, Quensway Jaycees focused on members recruitment, retention and training. There was no large project in our year plan. In stead, we had a lot of formal and informal gatherings. Members had the chance to know each other. Exchange of experience in either JC projects or own profession was the most precious area we treasured so much. Apart from inter-chapter activities, we did participate and organize inter-chapter functions. This helper to eider our view and got more friends. Being a leadership training organization, we not just train up ourselves, we also share with others. In June, we held a seminar called Total Quality management with participants from all walks of life. Although we are young, we care for the elderlies. By year end, we visited a Home for Elderlies in Chai Wan and spent a joyful afternoon with over 130 senior citizens.I am glad to be the gardener who plant the seeds and have them watered. Now most of the new members are capable to be independent. I have much confidence that Queensway will have fruitful 1994.

It is my great challenge to serve Sha Tin Jaycees as their President in 1993. I would like to extend my sincere appreciation to all members of Sha Tin Jaycees for their hard working and organized so many meaningful projects throughout the year. Harbour Lights is the official publication of Hong Kong Junior Chamber of Commerce, with their rewarding in 1993, I hope that it will step to another advance achievement.

Victoria Jaycees President '94 - Rosalinda Hong

It is with joy and excitement that I pen this message for the commemorative issue of Harbour Lights. Over the years, the Hong Kong Junior Chamber of Commerce, together with its 17 local Chapters, have built up an impressive profile of leadership development and community service in Hong Kong. I am elated to see these captured in this special volume. Victoria Jaycees, being the most senior chapter in Hong Mong, has always taken pride in being a part of the local Jaycee movement. Throughout the past years, Victoria Jaycees has organized many projects to help the less-privileged, and to raise public awareness on social and enconomic issues that have an impact on our daily lives. As Hong Kong enters the next century facing unique circumstances, Victoria Jaycees will no doubt continue to uphold its commitment towards preparing our young ciitzens for the leadership challenges of tomorrow.

Kowloon Jaycees President '94 - Amy Chan

Thank you for preparing the Souvenir Issue of Harbour Lights for us because reviewing the past inspires us to plan for the future. As the second LOM affiliated to HKJCC with almost three decades of history, Kowloon Jaycees has started well known projects such as the "Ten Outstanding Young Persons Selection" which was then continued by NOM as the most prestigious project up to now. By 1995, we shall celebrate our thirtieth anniversary. So in 1994, we are going to strengthen our membership growth and launch new community projects concerning promoting primary health concepts; youth affairs project, the "Mentor Scheme"; competition on understanding of present China; international affairs project to select both healthy and crippled youths to join the SisterChapters project aboard; and leadership training projects to prepare for this great event. Through this message, I wish the editorial board make the Souvenir Issue a great success so that it can be continued year after year like the TOYP Selection.

Island Jaycees President '94 - Nelson Fung

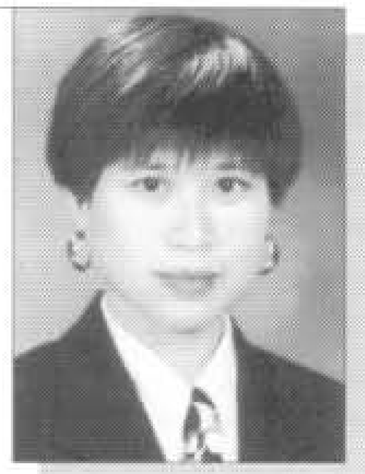

I congratulate with great pleasure the printing of the Harbour Lights Souvenir Issue. It is important that our works towards the betterment of mankind be recorded as examples and references for our future leaders. With professionals and company owners forming the most part of Island Jaycees' membership, we have a tradition of launching novel projects with large impact such as the "Pop Folks" concert in Hong Kong Stadium, the Solar Heating System in New Territories, "Youth Congress" etc.. In 1994, we shall establish a effective communication system among Islanders and with other Jaycees to make the best use of our time. Building on this strength, we shall launch another novel project to serve the community. We are glad to have the help of senior Islanders such as past JCI EVP Alex Tzang and many experienced past presidents. With their support and the high quality of our membership, I am confident to expect the successful launch of this project and take pride in continuing the good tradition of Island Jaycees.

Harbour Jaycees President '94 - Bertha Yeung

"Teaming up, in pursuit of excellence!" (凝聚海港動力，發放嶄新光彩) is our key objective to build a stronger Harbour Jaycees for the year of 1994. Member relation and members training are the two major emphasis we aim to work on this year. In the area of member relation, our task is to cultivate members' sense of belonging towards Harbour Jaycees and to strengthen the relationship among our members by getting them involved in our project and providing them more chances in communication and mutual understanding. While, in the area of member's training, we have planned a series of training programmes with different seminars on topics like JC knowledge, leadership and other personal skills in order to develop our members to take up future challenges. Apart, to contribute ourselves to the community, we have planned a project on hospice service to promote the public awareness on this issue. Further, we will, once again organize the International Children Drawing Contest which will be the 15th year in 1994 and make it a memorable event. I am sure that with the whole-hearted efforts of our members, the goals we aim at will be accomplished, and Harbour Jaycees will grow much stronger in 1994.

Dragon Jaycees President '94 - Alan Li

On the New Year Eve, I took my oath of office in the Inaugural Ball and became President of Dragon Jaycees. Presidents of Dragon Jaycees like to grab the earliest opportunity to take up responsibilities which is why we perform our Inauguration on New Year Eves. Dragon has become a legend. We are so lively and so daring that you can always find interesting projects from us. Even formal functions of our chapter are more enjoyable to attend. With good traditions laid down by Past Presidents and the unreserved support from our members, I am going to lead Dragon Jaycees towards another prosperous year. Last but not least, I sincerely thank the editorial team of this Souvenir Issue for taking the extra step to capture the events in 1993 for a permanent record.

East Kowloon Jaycees President '94 - Gerard Lau

I remember when I asked NP-Elect Ronald about the main problems of Jaycees, he undoubtedly said that it was the membership retention. I agree that our members are having very short Jaycees life which is detrimental to the growth of the Jaycees movement. It poses great difficulties in maintaining cohesiveness of our members to achieve our goal; to provide opportunity to the young people to develop the INDIVIDUAL abilities and stimulate JOINT efforts of them to make positive changes in economic, social and spiritual well-being of mankind. As in our slogan "Break the limits, enhance the spirits", EKJC is NOW in the direction to lead our members to explore and excel the leadership limits and more importantly to build cohesive fellowship. We need to assist our members to VISUALIZE the opportunities we are providing: to visualize and APPRECIATE their positive changes. Let our members SEE and TASTE the JC value. LET'S MOVE FOR IT.

城市青年商會94會長 - 葉成偉

過往一年，擔任總會副會長一職，所負責的工作是兩個分會的指派委員，在這期間常出席他們的理事會及月會等活動，分享到管理一個會的優點及弱點，明白到能夠成爲一個傑出分會，祇有一個傑出會長是不行的，更需要一群積極的理事，爲共同目標而奮鬥。如何能令一群工作經驗不同，學歷不同，生活興趣不同的會員，爲既定共同目標而奮鬥，有煩一個會長從中協調了。我寄望從以往的經驗，有信及積極推行會務，更希望這本珍藏版刊物能順利完成。

Messages From LOM Presidents '94

Queensway Jaycees President '94 - Iris Chan

"The year 1994 marks the beginning of a new era for Queensway. During the past decade, Queensway has gone through her high and low tides but no matter what, we are always grateful for all whom laid the solid foundation from which we grow. Queensway's 10th Anniversary will be one of which is eventful and colourful. For example, we have chosen the famous musical "Cats" as our fund raising project in January, we will hold a grand Anniversary Ball in April, a "Chef de Premiere Competition" in July, and also a three-phased CD project to take place from May until December, with focus on care for the Down's Syndrome children. However, our vision would go beyond the current year. We wish that through work and training, our members and board members will be cultivated to head the chapter and help Queensway to grow form strength to strength. Our goal is set and we are determined to make our dream come true.

浩洋青年商會九四年度會長 － 任錫晞

國際青年商會成立至今，剛巧踏進半個世紀：在這段期間，爲世界上培育出很多領袖人才及締造了不少情誼，將世界上人類的距離拉近，爲全球社會發展作出項獻。香港青年商會一九九四年度的主題是「關心年青一代，培育明日領袖」。本會今年亦朝這個向發展，希望秉承青年商會的宗旨，培育出一群有責任感的年青人，能爲社會的將來作出貢獻。

Information

Hong Kong Junior Chamber of Commerce has a history of over 4 decades.

This section outlines the origin and history of this organisation with a list of Prominent Jaycees.

A membership survey has been conducted by JC Peony Li which gives us in-depth knowledge about our current membership.

Most of the factual information in this section was prepared by National Public Relations Director JC Alex Tang in a pamphlet called <<Jaycees in Focus>>.

Some resources in Chamber Office may not be known to some Jaycees and hence undermine their utilisation.

Hence, they are included here.

The article on Action groups and External Relationships are important to those who want to get the most out of being a Jaycee.

This is also Jaycee knowledge that differentiates the green Jaycees from those dedicated & seasoned Jaycees.

Jaycees In Focus

Hong Kong Junior Chamber Of Commerce (HKJCC) Fact Sheet

The Hong Kong Junior Chamber of Commerce (HK Jaycees) is among the most prominent youth organizations in Hong Kong. Our mission is "to contribute to the advancement of the global community by providing the opportunity for young people to develop the leadership skills, social responsibility and fellowship necessary to create positive change".

We have at present 17 local Chapters. Our members are between 21 and 40 and our current membership is around 1800. Our members are dynamic professionals and executives from different sectors of the community. One thing in common is that they are dedicated to serving Hong Kong.

Since our formation in 1950, HK Jaycees is stepping into its 43 years of service to the community. Throughout these years, we have organized thousands of projects to develop our members as well as young people of Hong Kong to become leaders in the social, political and economic areas. Our projects are organized according to four areas of opportunities, namely Individual, Management, Community and International opportunities.

The Jaycee movement reached Hong Kong in 1949, when a Philippine Jaycee John Ng who was the Special Liaison Officer of the JCI 5th Congress and was charged with the mission of converting Hong Kong to Jayceeism arrived in November. Through the introduction of his cousin, Mr. Alex Ng, a Jaycee Senator still, Mr. John Ng was presented to Rev. E. Bourke, former director of Wah Yan College, Hong Kong. A meeting was then arranged for him to meet a group of young businessmen. During the meeting, Mr. John Ng's explanation of the aim and purpose of the Jaycee movement succeeded in firing the imagination of his audience. Eight days later, sponsor group of the Hong Kong Junior Chamber of Commerce was formed and Mr. Paul Lim was elected as Convenor of the organizing committee. Mr. Austin Coates from Hong Kong Government, then as Assistant Colonial Secretary of Hong Kong, was assigned to serve as Advisor to the Organizing Committee.

The tempo of laying the foundation of the Chamber was further stepped up when Mr. Ramon V. Del Rosario, the JCI Vice President for Asia, offered to recommend prompt recognition of the Hong Kong Jaycee membership status. He also invited the Organizing Committee to send observers to Manila to attend the JCI 5th Congress. On 21 Mar., 1950 a sponsor meeting was called to receive the report of the returned observers from Manila. The account of their vivid experience gave Hong Kong a deeper insight into Jaycee movement. A week later, the Provisional Constitution which had been in the making during the previous three months was adopted. Finally, on 6 Apr., 1950, the Inaugural General Meeting of the Hong Kong Junior Chamber of Commerce was held and the first Board of Directors was elected. One month thence, on 6 May, 1950, the Chamber was inaugurated by Mr. Roberto Vianueva, the JCI Vice President for Asia. Thus, The Hong Kong Junior Chamber of Commerce (HKJCC) was born.

Throughout its history, HKJCC is always actively involved in JCI adminstration. Sir A. De O. Sales was elected as JCI World President in 1956 and in Senator Jennifer Yu became the first lady JCI World President in 1988. Among others, the official publication "Harbour Lights" won the best NOM publication award in 1967 and a few more subsequently.

Four Areas Of Opportunities

Individual

For individual opportunities, we provide young people of Hong Kong with high-quality and comprehensive leadership training programmes. Jaycees is a renowned organization for leadership training and our expertise is fully reflected in our solid set up of a Training and Development Committee and a Trainers' Circle which comprise internationally recognized trainers. Each year, we organize around a hundred training courses and a recent one "Go for Your Best, Head for Success" held in September 1992 was well attended by over 600 participants.

Management

For management opportunities, we groom our members to be effective leaders by developing their management skills through managerial training and being a leader at various levels in the organization. Many of our members have taken up important leading roles in our community, e.g. Sir Roger Lobo, Chairman of Broadcasting Activity; Mr. A. de O. Sales, Chairman of the HK Committee of Olympics Games; the Hon. Tang Siu-tong; Mr. Chan Ying-lun, former Legislative Councillor; numerous District Board Members and top executives in large corporations.

Community

Jaycees care for the community. We involve our members extensively in community projects and our efforts have gained wide recognition from the Hong Kong Government and the public at large. Throughout these years, we have organized over 2,000 large-scale, high impact community projects which have successfully aroused the sensitivity of the Hong Kong people towards some society problems and important issues concerning all. Our annual project "Ten Outstanding Young Persons Selection" has built up a solid base of about 160 outstanding young people through the 21 selections held and they have continued to contribute themselves for the betterment of our society. Other examples are "Children's Rights Festival","One-plus-one Support Election Campaign","N.T. Outstanding Students Selection", "Young Scientists Award" etc.

International

Jaycees is a world-wide organization. We are affiliated to Junior Chamber International (JCI). Around the world, there are 500,000 Jaycees in nearly 13,000 communities throughout 90 members nations. Jaycees are represented in the United Nations, UNESCO, WHO, Food & Agricultural Organisation, EEC, Council of Europe, Project Concern International, UNICEF, CARE etc. Our international network is very strong and we open up our members as well as people in Hong Kong into tremendous international opportunities. Each year, there are numerous cultural exchange programmes and the ones which involve non-members are "Young Leaders' Voyage", "Fukuka Children's Convention" etc.

Every year, there will be regional conferences and world congress held in different parts of the world. In the past, Hong Kong Jaycees have organized 6 Asia-Pacific Conferences and a World Congress in Hong Kong. In 1993, we hosted another World Congress here and over 7,000 delegates from all over the world came to Hong Kong during 21 to 27, November which was definitely a boom to the Hong Kong tourist industry and economy.

Introduction Of Affiliating Chapters

Victoria Jaycees

Being the most senior chapter which was originally the Hong Kong Junior Chamber of Commerce in 1950, the Victoria Jaycees was formed in 1965. The Chapter continues to maintain a high standard in the members recruited and projects planned. Emphasis are put on leadership training and personal growth of members through projects providing opportunities in management, community, international and individual development.

Various successful projects were organized, such as "Hi-Tech in Command", "Great Hong Kong in 2000's ", "Hong Kong Economic Megatrend Survey" and "Financial Shuttle". The annual "Grandparents' Day", organized since 1990, is the first in Hong Kong to promote festive day for grandparents, and arousing public awareness on paying tribute to the elderly.

Kowloon Jaycees

Kowloon Jaycees is one of the veterans in Jaycees history. In the past 28 years, they have carried out numerous meaningful and remarkable projects as well as exchange programmes with associations in other countries.

Among those projects, some had created a great social impact. For example, the "Young Scientist Award" each year since 1983 that cultivated the interests and recognised creativity of youth in science and technology; the "Clunk, Click & Go" campaign initiated the use of safety belt in Hong Kong; and the "3A Project" which brought public attention to gifted children.

Island Jaycees

Established in 1966, Island Jaycees has pioneered many large scale projects in various spheres towards the betterment of our community and the elevation of knowledge and experience of their members.
Through organizing various projects, the Chapter anticipates to:
- promote and cultivate a sense of belonging among the members;
- encourage members to be more active in participating in community oriented services; and
- develop and improve the true spirit of being a Jaycee.

"We were there, let's share!" was the slogun of 1993, which aimed at further strengthing the relationship among members and prospective members in order to enhance the team spirit within the Chapter.

Peninsula Jaycees

Peninsula Jaycees was registered in February 1969 as the fourth affiliated member of Hong Kong Junior Chamber of Commerce. It was the first Chapter using Chinese as official language and recruiting female members.

Peninsula Jaycees now comprises about 250 members including ordinary and prospective members. In 1991, they were awarded the Most Outstanding Chapter of the World. At the 1992 Miami World Congress, they again acquired many awards.

Prominent projects attracted the attention of the public; these included "Hong Kong- We Build, We Love, We Care" and "The Hong Kong Youth Translation & Simultaneous Interpretation Competition".

Hong Kong Jayceettes

Hong Kong Jayceettes, founded in October 1969, is one of the most active local chapters in the world. It was the first lady chapter in Asia and the second in the world.

In 1974, the launching of family planning project "Earth Population Awareness Programme" with the famous slogan "一個嬌,兩個妙,三個吃不消,四個斷擔挑" created by the Chapter is still popular among local citizens of Hong Kong. Four Decades Of HKJCC History

Hong Kong Jaycees in the 50s

Hon. Life President Mr. A. de O Sales

An Interview with Hon. Life President Mr A. de O Sales

Mr A. de O Sales, a great contributor to the development of Hong Kong and a highly influential personage in the international sports arena, was a fully devoted Jaycee during his youthful days.

He was the National President of Hong Kong Jaycees during 1953 and 1954. His great competence and leadership skills were clearly demonstrated through his organization of an Asian Pacific Conference in Hong Kong in 1954. His ability and drive were aspired by Jaycees all over the world who whole-heartedly supported him to be the World President in 1956. At that time, he was only 35 years old.

In 1962, he organized a very successful World Congress in Hong Kong which until now was being sweetly memorized.

Mr Sales is very busy these days. We are extremely grateful for his warm hospitality and sparing his precious time for this interview. We are deeply impressed by Mr Sales' broad scope of knowledge, meticulous analytical power and pleasant and approachable personality. This great leader has got much of his training in Jaycees.

Mr Sales sits cosily at his office's sofa, happily sharing with us the development of Hong Kong Jaycees in the fifties.

During 1945 and 46, after the Second World War, Mr Sales was already active in community development activities. At that time, there was still no Hong Kong Jaycees. Through the introduction of a few British friends, he joined the Hong Kong Jaycees in 1950 which got a membership of around 40 members.

At that time, there was a strong fellowship among members. Mr Sales said that many Jaycees he knew during this period remain his very good friends.

Composition Of Membership

In the fifties, only half of the members were Chinese, the others were from different nationalities, including British, Portuguese, Vietnamese, Thai, German, French, Japanese and people from South East Asia.

The Chinese were also from a good mix. Some were from Shanghai, Beijing, some returned from the United States and some were members of prestigious Cantonese families in Hong Kong.

Apart from nationality, the members were from all walks of life embracing merchants, consuls, doctors, dentists, lawyers and other professions. People of different nationalities and background joining experience together in serving the Hong Kong community outstood the uniqueness of Hong Kong Jaycees at that time.

Four Decades Of HKJCC History

Mr Sales pointed out that the most significant achievement of Jaycees was to unit young people to actively care for the community and positively work for the betterment of Hong Kong.

With the tremendous efforts devoted by Mr Sales and other Jaycees, a lot of young people were attracted by the mission of Jayceeism. In 1962, the year of the first Hong Kong Congress, the membership had already been increased to 140.

Activities in the fifties

Activities in the fifties were all targeted to serve the community and strengthen young people's fellowship, with a vision to build up a more harmonious and united society.

Among all the meaningful projects organized, establishment of childrens' libraries got most social acclaim. The first children's library was built in Wanchai. This high impact project was internationally recognized, winning the first award for Hong Kong in the Melbourne World Congress.

Jaycees provide systematic training for members

To gain is to serve. Mr Sales reminiscences that he devoted much of his time to Jaycees during this period. There was an average of one board of directors' meeting and three to four organizing committee meetings in a week. He firmly believed that such time was well spent.

Mr Sales advises that Jaycees is the key to broaden our horizon, sharpen our social awareness and open our eyes and minds to other countries' culture and customs.

Jaycees is that marvellous organization which provides systematic training to members. These all rounded training are essential for an individual to develop his character and leadership and organizational skills. Through working with other young people, we are able to build up good team spirit, make new friends, enrich our social network and polish our interpersonal skills. All these make us a better person and a better citizen.

Mr Sales remarked that Hong Kong Jaycees enjoyed a very high social status during this period. There were full support from the then Governor of Hong Kong who often participated in Jaycee activities.

During Mr Sales' world presidency, he visited 80 countries. He was often invited by the then Governor to the Government House to share his overseas experience.

Mr Sales believed his life would be different if he had not involved in Jaycees. Jaycees brought him actively in the community. After his term as the World President, he was appointed into the Urban Council. He admitted that Jaycees' training was of great value and benefit to his community service.

Hong Kong Jaycees have whole-heartedly devoted to serving the community in the past 40 years. Our mission and healthy organization inspired a substantial number of young people to join our family. We have through these years developed a lot of influential leaders for Hong Kong. The unique international network of Jaycees is of significant value to the development of Hong Kong and China.

Four Decades Of HKJCC History

Jaycees in the sixties

Jaycees is an international organization. We have a membership of over 400,000 with members from near 100 nations and places.

Jaycees gather people from different nationalities, races and culture. We all have the same common goal and belief. We support each other and have friendly exchanges. We challenge ourselves to perfection. We contribute what we learn by actively serving the community.

The consolidating force for these young people is the Jaycee Creed which reads:-

"We believe:
that faith in God gives meaning and purpose to human life,
that the brotherhood of man transcends the sovereignty of nations,
that economic justice can best be won by free man through free enterprise,
that government should be of law rather than of man,
that earth's treasure lies in human personality,
and that service to humanity is the best work of life."

The first World Congress in Hong Kong

Setting up in 1950, the Hong Kong Jaycees experienced steady development. In 1960, its membership grew to 180, among which half was Chinese. Purported to broaden the international exposure of our members, the Hong Kong Jaycees decided to host a world congress in Hong Kong in 1962.

In that year, economic development of Hong Kong was still at a pre-mature stage. There was insufficient public transport. Communication could hardly be compared to those at present. It was privilege to have a phone at home, not to dream of fax machine and mobile phone. so we could imagine how tough it was to organize a world congress at that time.

Yet, Jaycees welcome challenges. We would not be deterred by difficulties. Hong Kong Jaycees managed to maintain a close link with JCI headquarters and other NOMs through telex, distance calls and air mails in organizing the world congress. When the organizing committee were worrying a suitable venue for this grand occasion, the City Hall was established in March 1962, just in time for the congress.

The World Congress was held from 1 to 13 November 1962. There was a total of 1,038 Jaycees from 50 nations attending. During these 13 days in Hong Kong, apart from meetings, there were a wide variety of activities including fashion show, Chinese music concerts, Victoria Harbour tour, visits to factories and New Territories. The congress laid a firm foundation for the prosperous development of tourist industry in Hong Kong. The pioneering English "Chinese Opera" successfully implanted Chinese culture into the political arena.

The success of this world congress not only provided substantial practical training to our members, it comprehensively introduced Hong Kong to the world which greatly contributed to the development of Hong Kong into a metropolitan city.

With our rich experience in organizing international meetings, the Hong Kong Jaycees took up the challenge to organize an Asian Pacific Conference in 1966.

Four Decades Of HKJCC History

Development of LOMs

The two international meetings solidified the social status of Hong Kong Jaycees and attracted a lot of young people to join the organization. Because if the rapid increase in membership, a LOM Kowloon Jaycees was formed in 1965 and the original Hong Kong Jaycees became the Victoria LOM. These LOMs were affiliated to Hong Kong Junior Chamber of Commerce.

As members became more and more, the Harbour Jaycees was set up in 1966.

Mr. Justein Wong presents his speech at the activity organized by Peninsula Jaycees, the first LOM with Chinese as the official language

With the increasing growth in Chinese members, the Peninsula Jaycees, the first LOM with Chinese as the official language, was formed in 1969. The first female LOM, the Hong Kong Jayceettes, was set up in the same year.

Serve with Originality

Jaycees in the sixties were characterized by versatility and dynamism resulting from a good mix of members with different nationalities and professions. These joint efforts had pioneered a lot of meaningful services for Hong Kong.

With an aim to upgrade the proficiency of English language in Hong Kong, Hong Kong Jaycees joined hands with YMCA in organizing free English courses for adults with expatriate members as voluntary tutors.

The first Miss Hong Kong came to earth through the Hong Kong Jaycees. This beauty pageant outstood in the conservative society of those days. Nevertheless, we witness our pioneering spirit through the good number of beauty contests organized today.

Hong Kong Jaycees have always been active in community development. In the sixties, we organized meaningful projects such as Clean Hong Kong Campaign, setting up a braille library for the blind, charity donation for boat people.

All of these activities had made great impact on the Hong Kong society.

Four Decades Of HKJCC History

The Seventies and Beyond

With time passes by, HK Jaycees celebrated its 21st anniversary in the 1970s. By that time, the organization was well established with five affiliating Chapters.

Under the Creed "Service to Humanity is The Best Work of Life", a series of meaningful projects were implemented during the decade.

With traditional Chinese thinking, the ideas of "family planning" was not welcomed in the past. The girls from HK Jayceettees made great efforts in introducing their famous project " The Danger of Population Expansion". The ideas of population control was first brought to the Hong Kong Citizens and the famous slogan of "One is Good, Two is Wonderful" was well received by the public until now..

In 1970, Kowloon Jaycees organized the first "Outstanding Young Persons Selection" with the aim of establishing examples for the teenagers. Those youths with achievements in their career as well as public concern were recognized with the award. The project was appreciated by the Governor, Government Officials and the general public. Five outstanding young persons were awarded in the first selection.

Presentation of award to awardee Tong Lau, TOYP Selection 1993

Until 1975, the project was formally named as "Ten Outstanding Young Persons Selection" by HK Jaycees. Selection criteria was well adopted with classification into four areas - Industry & Commerce; Public & Social Service; Professionals; and Arts, Sports & Others. Upto date, over 160 persons were selected with the awards in the past 21 selections. Moreover, the awardees were nominated to participate in "World Outstanding Young Persons Selection". This further encouraged them to continue serving the community.

Beside the youth, HK Jaycees also expressed their care for the children. In 1972, the Jaycee members raised over 10,000 pieces of toys from 27 manufacturers to create the first "Toy Library". The library provided chances for those poorer children to learn through playing during their childhood.

In the 70s, English was the sole official language in Hong Kong. HK Jaycees, being affiliated to Junior Chamber International, also adopted English as its official language since it foundation. Meanwhile, local Chinese members had increased substantially and became majority in the organization. With the aim of promoting Chinese as a second official language, HK Jaycees installed many new Chapters - Peninsula (1969), Lion Rock(1971), Harbour(1977), Yuen Long(1977) and Bauhinia (1980) with Chinese as their official language.

With limited financial resources, HK Jaycees could not afford its own club house. Meetings were normally conducted in members' offices. Until 1977, funds was raised to purchase a club house in Queen's Road Central for long term development of the organization.

Four Decades Of HKJCC History

After the opening of the new office, HK Jaycees was rapidly developed in the following decade. Many new chapters - Dragon, East Kowloon, City, Queensway, Macau, North District, Ocean, Shatin and Hou Kong were subsequenetly installed in the 80s. Macau & Hou Kong were specially arranged by HK Jaycees to promote the Jayceeism into Macau. In 1988, Macau was then recognized as a National Organization Member of the JCI. Through the support of its 17 chapters, thousands of projects were organized by the HKJaycees.

The refugees from Vietnam was a big issue of Hong Kong in the 80s. Though the Vienamese created certain burden to Hong Kong's economy, their encounters was so hard and helpless. Breaking through the obstacles of nationality, race and language, HK Jaycees organized various activities, such as children's carnival, inside the Vietnamese campus. One particular project was organized in June 1980. During the visit of Youth Boat from Japan, 500 Japanese youths and some from other countries were brought to visit the Vietnamese boat people. This further emphasised the Jaycee spirit of " The Brotherhood of Man Transcends the Sovereignty of Nations".

HK Jaycee members also paid their attention to disabled people. Various projects like life camps, traffic carnivals, exchange programs, health care seminars, sports & games activities etc. were organized to breakthourgh the gap between the disabled persons and general citizens. Such progjects gained great support and feedback from the public.

Besides, HK Jaycees always concerned in various social issues. The Kowloon Jaycees was the first one to promote the use of safety belt in driving. Their project "Click-Clark-Go" was well received by the general public. Later, drivers & passengers in the front seats of cars & taxis were bound by Law to put on the safety belt.

After singing of the Sino-British Joint Declaration on the Future of Hong Kong, exchange between people in HK & China became important. In 1986, Victoria Jaycees organized a youth camp in which students and lecturers from Zhong Shan University of Guangzhou were invitied to visit the Chinese University of HK for exchange of ideas and experience with youths from HK. This was fhe exchange program with youths from China. Since then, increased contacts were made with youth organizations in China. From 1989 onwards, visit to the All China Youth Federation in Beijing is an annual activity of Hong Kong Jaycees.

With the goal of " Global Unity", HK Jaycees organized "Youth Voyage" in1986 & 1987. Over one hundred youth persons were invited to participate in the sea voyage each year. The participants also gained the chance to stay with families in Japan. After the voyage, some participants were deeply impressed by Jaycee spirit and formed a new chapter - Ocean Jaycees.

The 80s were fruitful years of HK Jaycees. Tthe Jaycee movement was rapidly developed and the club house was unable to cope with the needs of its members. In 1990, the Jaycee office was then moved to the present location at Sheung Wan which offers better space and facility to serve its 1600 members from 17 affiliated Chapters now.

Since its establishment in 1950, HK Jaycees was growing together with the cmmunity of Hong Kong. With its Creed of "Service to Humanity is the Best Work of Life", Hong Kong Jaycees will definitely continue to serve its home city - Hong Kong beyond 1997.

However, "Youth Outreach" shared with us their experience on helping the youngsters who temporarily run away from home.

Jaycee Thomas Ng was the co-ordinator of the second visit which was scheduled on 21 Aug. The firm to be visited for its efforts in environmental protection. A total of eighteen members registered for this function.

Another CCG visit - to the nuclear power plant in Daya Bay - originally planned in late 1993 was new scheduled in Mar., 1994. Jaycee Christopher Chung will lead the delegation to Daya Bay next year. NVP Elected William please take note of this visit.

Paper Clipping

Paper Clipping is an all year round job. Articles - on the areas constitutions and administration, economy, youth related matters, elderly related matters, housing and transport, environmental

protection, health and others - taken from magazines and newspapers are kept in Chamber Office for members' perusal. Two issues were compiled so far with the assistance of National Administration Director Tony Chan.

Opinion Papers
Two articles entitled "Industrial Work Safety" and "Jaycees Support to the Charter for Youth" were sent in the form the press release to the local press and were publicized.

More opinion papers should be issued if we wished to strengthen the image of HKJCC being a community conscious organization.

Seminar on Political Parties
The seminar entitled "The Development of Political Parties in Hong Kong" was scheduled on 5 Sept. with the objective of arousing members' awareness on the importance of such development. Three prominent speakers, namely the Honourable Andrew Wong, OBE. JP, Dr. Joseph Cheng and Mr. Chan King Cheung, would enlighten us on this topic. National Theme Director Jinia Chan was the Project Chairman.

Way Forward to 1994
Though the activities held so far had brought encouraging results, members' participation not satisfactory. Members are welcome to raise their concern an suggestions on CCG.

Since social awareness / consciousness of a person could not be enhanced in a short period of time,. the merits of the CCG activities could only be conceived after successive operation over years. I felt it was a right move to continue the concept of CCG in 1994 and onwards. As for the structure of CCG, I thought it would be better to be in the form of an official committee with a Chairman and committee members overseeing its activities under the supervision of a National Officer. With regards the interest areas, the concept of 'specific and concentration' was preferred to that of 'wide and scattered".

The Hong Kong Jaycees Senate

When we are in many JC functions, we always hear the address of "Senators" to some members or officers. Are these "Senators" equals to the Senators in the U.S. Government? Actually, it's not. It's a kind of recognition for members who have significant contribution to the Jaycee organization with "Life Membership".

A JC member cannot apply for senatorship by himself/herself. It must be through some formal procedures. The following are the qualifications required in Hong Kong. " A JCI Senatorship may be conferred on a member after formal nomination procedures by LOM, NOM & JCI. A member's application for JCI Senatorship duly approved by his/her LOM will be submitted to the Senators Screening Committee which will discuss the merits of the applicant having regard to the minimum qualifications of Senators specified by JCI, and in some cases, additional qualifications specified by the NOM. The Committee will then submit its report to the NOM President to decide on such approval. Should the application be approved by the NOM President, such application will be sent to JCI for final approval.

The minimum qualifications of the Senators are defined within the following parameters:-

i) At least 3 years membership in good standing;
ii) Active participation in LOM projects or having completed his/her office as a LOM Board member in an outstanding manner;
iii) Active participation in NOM projects or held positions in the NOM Board with superior contribution;
iv) High attendance record in LOM functions and meetings; and has attended a minimum number of National Convention, and preferably Regional Conference and World Congress of JCI; and
v) Positive contribution towards membership and extension of his/her LOM and/or NOM as well as promotion of the image of Jaycees to the public, and strive to further the interest of Jaycees.

It should, however, be noted that a standard much stricter than that of the minimum qualifications has been imposed in the recent years.

Since a Senatorship confers "Life Membership" in JCI, NOM & LOMs are encouraged to include a self-operative provision in their constitution that a JCI Senator shall also be a life member of the respective local and national organization. However, the awarding of this status does not exempt the member from paying regular membership dues to his/her LOM, NOM and JCI, who are in Jaycee age."

Senators are given recognition in offical functions and enjoy certain priviledges in regional conferences and World Congresses. In Senators' Dinner in 1993 JCI World Congress, more than 600 Senators from all over the world attended this function. PNP Senator J.S. Lee (Senator No. 54) was recognized as the most senior Senator in the dinner.

In 1993, 9 Senators applications were approved and 7 Senatorship have been presented during the National Convention. When you find somebody who is so devoted and contributed to the LOM or NOMs, please remember to nominate him/her to the board of direçtors of local chapter for nominating his/her application as a senator. The more senators in your chapter, the more devoted and dedicated members your chapters have. They are invaluable assets for your chapter to explore and maximize their experience.

Activities

The year 1993 was a very lively year for the Hong Kong Junior Chamber of Commerce.
In addition to the annual project "The Ten Outstanding Young Persons Selection", we have injected new ideas to our official events.
The "Jaycee Week" was held in February in substantially larger scale than before, greatly increasing our membership.
The National Convention hosted by Bauhinia Jaycees was filled with sentimental moments, winning praise and glory while strengthening the fellowship of the hosting chapter.

This year, we have two special events.
We hosted the JCI World Congress for over 7,000 delegates from all over the world. We were also staged on TV as an one hour special programme in "Enjoy Yourself Tonight", introducting Jaycees to a large audience.
At the same time, we have our "Jaycee Song" which was sung by Jaycees in uniform and used as the opening music for the programme.

For community projects which formed the core of our work, a large proportion were inspired by our 1993 Major Emphasis Theme "Care for Youth; Concern for Global Unity".
Please don't miss the comprehensive and colourful report by *National Theme Director JC Jinia Chan.*

1993 Major Emphasis Theme

Care for Youth; Concern for Global Unity

Youth is a delicate period in a person's life. It is a critical transitional stage from childhood to adulthood. During this period an adolescent begins to search for his self-identity and acquire knowledge, skills and social techniques to prepare himself for the responsibilities and privileges of adulthood. However, he is at the same time very fragile and susceptible to bad influences in the society because he has not yet developed a mature mind which is strong enough to help him distinguish between right and wrong.

Youth is an invaluable resource in every society. Our future lies in their hands. We need to give them particular care and concern because they way they think and the way they act often have significant impacts on their future attitudes towards family, work and life.

As Franklin Roosevelt noted, "we cannot always build the future for our youth, but we can build our youth for the future." In this light, the Hong Kong Junior Chamber of Commerce have set ourselves to "Care for youth" in 1993.

Many Chapters responded to this year's Major Emphasis Theme and have launched projects along line with it. Details of these projects will be introduced in the following pages.

National has also launched a sponsorship programme from July to December by subsidizing outside voluntary youth. Organizations on projects concerning our Major Emphasis Theme 1993. The objectives of this sponsorship programme are:-

1. to arouse the community's concern on youth;
2. to motivate voluntary youth organizations to organize projects for the benefits of youth in Hong Kong.
3. to partially subsidies these organizations who have good proposals concerning our Major Emphasis Theme;
4. and to train up Jaycee members by involving them in the subsidized projects. These Jaycee members would either provide guidance and assistance in project planning and management to the organizing committees; or to exchange experience with them.

National has finally, selected 4 projects to receive the subsidies.

The following is a summary of all MET projects launched in 1993. Details of each projects are contained in subsequent pages:

National Sponsored Project

Our Bone, We Care

Organizer: Kowloon Jaycees, co-organized with Auxiliary Medical Services (AMS)

Objectives:
Young people actively participate in all kinds of daily activities. Household accidents and sport injuries happens everywhere and anytime. The accidents include traffic accidents, workplace and industrial accidents.

If the victims delay to seek proper treatment such as seeking advice from bone-setters initially follow the Tarboo concepts and break the continuity of the proper treatment due to lack of basic knowledge on the bone injuries healing process, problems always easily arise. Deformities, loss of certain functions and mobilities of limbs likely occur when not receiving proper care at the right time. As a result, prolonged hospitalization and medical care are required.

Kowloon Jaycees and AMS believe that it will benefits particularly young people in Hong Kong by enhancing their awareness and knowledge introducing proper concepts about the causes of fracture, dislocation and spinal injury, the treatment, the bone healing process, the prognosis as well as the prevention to injuries.

Contents and Results:
1. Handbook on limbs injury & fracture treatment 1,000 copies have been distributed to youth, clinics and hospitals.
2. Seminar on limbs injury and spinal care on 15 Aug., 1993 attended by 300 youths.
3. Exhibition Booth on Bone Care for youth on 29 Aug., 1993 at the AMS Carnival visited by about 2,000 youths.

LDS '93 consisted of pre-tour, seminar and post-tour. The overseas delegates visited a lost of famous tourist spots during the study-tours, such as the Peak, Ocean Park, Stanley, Repulse Bay and Wong Tai Sin Temple. The seminar was held in Kadoorie Agricultural Research Centre near Tai Wo. Besides interesting games session, LDS had training on our Exchange Program, Global Theme Program and on

leadership. At night time, the participants stressed on cultural exchange and interaction. There was a Cultural Performance session on Day 1 and Souvenir Street on Day 3. The participants had a party at the last night of seminar, too. Each night, the delegates chatted inside the rooms about themselves, about others and about AIESEC until very late.

Benefits :
All participants admitted that they have learnt a lot from the Seminar. They got motivated, made treasurable friendship, and got confidence in front of the people. The sense and experience of internationalism of participants are greatly improved. "Visit Green Garden"

To echo with Hong Kong Junior Chamber of Commerce's 1993 Major Emphasis Theme "Care for Youth, Concern for Global Unity" Victoria Jaycees organized the project "Visit Green Garden".

This was held on 23 May, 1993 at New Territories of Hong Kong.

A large number of students together with family members gained first hand experience of natural cultivation by the traditional ways without chemical fertilisers and insecticides. All participants enjoyed themselves.

Through active participation in learning the way to protect the food that we eat and digest, the participants came to realize how the environment would be of immense impact to us.

This important message of environmental protection impressed the participants to a great extent.

Victoria Jaycees will continue their effort in bringing young people to develop positive concepts and values.

Correct Posture of Children

Having been appraoched by the Hong Kong Chirapractors Association who showed great interest in the provision of necessary information regarding the correct posture of children nowadays, the HKJTT decided to launch the project. Emphasis of this issue was put on prevention rather than cure which highly motivated us to take on the project.

The project was conducted with exhibition panels illustrating the importance of the growth from toddler to adult stages for two days. In order to

ensure the message was widely spreaded, a handy brochure with all information exhibited was published and circulated during and after the event. Very positive response was received upon distribution of these brochures to various schools, kindergartens and libraries.

The Chapter was honoured to have Mrs. Peggy Lam, OBE, JP, to officiate the kick-off ceremony on 11/13/93. Other prominent guests included representatives from the Chapter's major sponsors, Chirapractors Association and King Koil (Far East) Ltd.

Hong Kong Jayceettes
"Environmental Protection Young Embassadors Exchange Program"

The preservation of our environment has given way to the rapid growth in economy in the last couple of decades. The booming industrial development and growth in population especially in the Asian countries such as Thailand, Korea, Hong Kong Singapore and China have resulted in less priority being given to prevent pollution, to protect the environment and to control the natural resources.

In view of this and to echo with the JCI's sub-theme "Environment" and "Future of Children" in the hope that all JC could face these issues and make an effort to strike a balance between growth and conservation, HKJTT decided to launch this project jointly with one of our sister chapters, Yokohama JC, so that a more lovely and readily planet would be saved for the "Future of Our Children".

This project was launched with 20 young ambassadors aged between 9 to 11 selected from over 300 applications. These children went through a series of trainings including Japanese culture and language, and most important of all, knowledge of environmental protection through seminars conducted by expertise. Before they were being escorted to Yokohama for a 5 days 4 nights home stay, they participated in the "World Environment Day" organized by the Environmental Protection Department of H.K. During the stay in Japan, the children experienced culture of our neighbourhood country and at the same time, widened their scope of horizon on the technology advancement being applied in this area.

Upon return from their trip, a press conference was held for the young ambassadors to share their unforgettable experience and valuable knowledge with those who were unable to attend the homestay. Wide coverage on this issue had been done on all local newspapers and the intension of spreading this message through this project to all children staying in Hong Kong was achieved.

Enjoying consecutive successes in the Chapter's annual project - "Foreigners Speaking Putonghua Competition", the organizing committee was committed to add some creativity to the original theme.

In order to add more zest to the project, it was decided to include local as well as foreign youngsters in the contest. Hundreds of circulars & posters were despatched to all the local schools and a number of international schools
teaching children within the age of 10 to 18. It was astonishing & slightly embarrassing to witness foreign kids handling the language better than their local counterparts.

Reporters from various newspaper had a field day during the press conference which was held to announce the finalists. The winners were eventually selected on Oct 2 after the original schedule was blown away by a typhoon a week before.

"93 International Children Drawing Contest and Exhibition

Harbour Jaycees, joint with the Yautsim District Office, Urban Council and Sing Tao Limited, has successfully organized the'93 International children Drawing contest again on 26 Apr., 1993 at the Piazza of Hong Kong Cultural Centre. Ten Outstanding Young Persons Selection 1993

As Hong Kong is undergoing rapid social, economic and political changes and as every walk of life is either shaping, or in turn, adapting to these changes, the devotion of young people to the community could take on significance far beyond the confines of their scope. In fact, a great deal of Hong Kong's success can be attributed to the enthusiasm and dedication of young individuals.

The Hong Kong Junior Chamber of Commerce (HKJCC), through the 21 selections, has recognized the achievement of over 160 outstanding young persons from every sector of our community. These coming generations of leaders in their respective field of endeavour, on being selected, make further contribution to Hong Kong and serve as inspirational examples to other young people. Over the years, four of the Hong Kong Awardees - Mr. Pao Ping Wing, Ms. Doreen Leung, Mr. Jacky Chan and Ms. Tsang Wai Yin - have also been honoured at the international level.

Positive feedbacks were received from participants such as good time management, thorough and detailed preparation work, interesting and enriching Theme and Training Seminars, elegantly designed convention kits etc. With less than 20 members in the organizing committee and partial sponsorship, the Bauhinia Jaycees was proud to present a promising convention to the participants with some profit margin. After a number of sleepless nights, sweat and tears, the organizing committee was able to taste the fruitful results eventually.

Nevertheless, the evaluation meeting took more than five hours, and a long list of evaluation items and recommendations were put forward. Numerous invaluable experiences were shared among the members such as the synergies of team cooperation, the training received in organizing this two and a half days' event and the realization of individual potential etc.

WORLD CONGRESS HIGHLIGHTS AND RETROSPECT

No Jaycees knew in 1962 that after organizing a Junior Chamber International (JCI) World Congress that year, Hong Kong would have the opportunity of hosting the second one in 1993 — after a long awaited 30 years!!!

The 1993 Hong Kong Congress marvelled every overseas delegates with non-stop excitment from 21 to 27 November. From the spectacular Opening Ceremony featuring more than 90 National Organization Members (NOM) colourfully attaired in national dress and formally introduced on stage with pomp and pageantry to the grand finale of the Awards Presentation and Presidential Gala, a series of eye-opening events kept all the delegates busy.

The PRIME and EXCEL courses again attracted a large number of nominated attendance. Many Jaycees were enriched by a variety of training seminars delivered by well-known trainers and renowned corporations including, to name a few, Allan Pease, Bob Pike, Bjorn Ringom, Avatar Resources for Organizations, Inc. and Brian Tracy Learning Systems, Ltd. Many others sampled on the fun side like the Welcoming Party and sundry National Parties - USA Night, French Night, Japan Night, European Night and Hong Kong Night!

No matter which type of function you participated in most, I hope you have not missed the Senators Programme (for JCI Senators), the International Business Network's "Trade Mission to China", home hospitality, harbour cruise, trade show, golf tournament, sports competition, the 1994 JCI Presidential Causus and Election, the grandiose "The Outstanding Young Persons of the World" Ceremony and the UNICEF Concert in support of the life-saving work of this organization.

Last but not at all the least, one memorable event was indeed the successful election of our National President Senator *George Lung* as the 1994 JCI Vice President in Area B.

Behind the scene of a World Congress, there must be sacrifice of individuality for the good of the whole. To recognize the sweat and tears of many devoted fellow members, it would be important to strive on to continue their good work.

Bring family to Jaycees campaign

A special tribute to JTT President Winnie Yeh. She is not only a believer of our ';Bring Family to Jaycees' Campaign, but she is an excellent example of how we can practise the spirit of this campaign in our daily life, Her batter-half, Peter feels at home when he attends our Jaycee functions, and her children know how to enjoy themselves at our activities. She even brings a new baby to her family during her busy term of office and her daughter was born during the National Convention. This truly demonstrates that family and Jaycee activities can co-exist harmoniously and at times it can bring us special joy and unforgettable happiness. This year the campaign 'Bring Family to Jaycees' has received some very encouraging and positive responses from members. Extracted here is a note from NDJC President-Elect Eric Ng. I certainly wish that the spirit of this campaign will be promoted in Jaycee activities in future.

Juliet Lam
National Vice-President *93*

Dear NVP Juliet,

Thank you so much for your congratulations and also the beautiful bookmarker. We are all in JC family and sure NDJC and I will always fully support the movement of "BRING FAMILY TO JAYCEES" which brings fun and happiness to us as well as to make our beloved organization, JC, grow stronger and bigger.

I really appreciate the support from you, NVP Juliet, your mother Chapter, as well as other NOM officers and JC members, we shall keep ourselves moving forward to carry out projects and activities ... and of course to promote the spirit of "BRING FAMILY TO JAYCEES." Salutation to Spouse

The warm and lovely atmosphere had attracted more than 40 couples, including our World President and many distinguished guests to attend the "Salutation to Spouse" which was held at the poolside of Omni, the Hong Kong Hotel.

Within the two hours event, there were Chinese traditional wedding costume photo-taking, souvenirs to spouse, love songs, sweet talk as well as demonstration of flowers arrangement.

Mrs Chen Huang Mei-Yin, wife of Past President of Kaohsiung Jaycee, demonstrated the art of flower arranging at the spot. She has been a professional and experienced flower arranging teacher of YMCA for 23 years.

It was surprised that most of the husbands could remember their exact dates of marriage. After having put on the Chinese traditional wedding costumes, the couples looked as if they were newly married. Their affectionate facial expression showed when they were asked to recall their sweet memories. The time was cheered up once again by group singing of love songs and well concluded by group photo-taking.

「別人的歌」？ 不， 我們的歌!

一九九三年十月八日青商週年大會中， 我誕生了， 潘源良先生爲我取名爲「還趁我年輕」 - 香港青年商會會歌。

有人說我提高了香港青商的形象， 因爲四十幾年歷史的組織終於擁有自己的會歌， 有人說我增強了團隊的精神， 因爲我道出了青商的理想。我自己卻最滿足於每次在不同的青商活動中帶來了歡欣喜悅的氣氛。

感謝倫永亮先生， 他創造了我。我給人的感覺是「豁達開朗」， 是豪情澎湃」， 而且青商朋友很容易就熟唸我， 只花上三、五分鐘， 就可以掛在咀邊。

感謝潘源良先生， 他爲我添上燦爛的衣服， 反映了青商積極向上的精神， 亦說明了服務社會的理想。

感謝青商唱家班包括Ernest Chan, Steve Chan, Shelina Chung, Catherine Ha, Lawrence Leung, Catherina Ng, Thomas Ng, Rebecca To 及Bertha Yeung, 那天他們連什餐也沒有吃，六小時在錄音室中把我唱活了。

第二十八屆青商週年大會中，我作了第一次的展示，現場氣氛很好。有意見認爲「激昂些調子更好!」有意見認爲「意念很好，做得不錯!」也有意見認爲「可以接受爲第一首會歌」。雖然意見紛紜，他們都有一個共同的想法:我不是「別人的歌」，而是「香港青年商會的歌」，是特別度身訂造的，他們欣然通過了我成爲「香港青商會歌」。

十月二十三日我上電視了， 我掀起了序幕， 成爲當晚節目的開場曲， 向廣大市民輕鬆地介紹了青商。節目中更有世界大會及青商大型工作計劃的環節， 推廣青商大業。聽說播映之後，收到不少申請表及查詢有關入會事宜。

我的誕生不是偶然的，是不少青商會友努力合作的成果，希望各位珍惜我的存在，繼續把我介紹給新會員，流傳下去!

Jaycee Night in EYT Show

Hong Kong Junior Chamber of Commerce was first featured in a full length television programme "Enjoy Yourself Tonight" on 23rd October, 1993. The programme started with the singing of the Jaycee Song by a team of joyful Jaycees followed by other talent shows and Interviews of prominent Jaycees and Ten Outstanding Young Persons Selection awardees. In addition, Congress Director Senator Ng Leung Yau announced the upcoming JCI World Congress in Hong Kong to the public. The history and ideals of Jaycees was explained by our Past National President Senator Junia Ho.

HKJCC has been contributing to the community in low profile for many years. It is not uncommon to find people knowing more about our projects than this wonderful organisation that created these projects. Through this night, we presented ourselves to the public systematically in a entertaining manner.

While most Jaycees are familiar with the Jaycee information presented that night, some may be surprised by Jaycee Alice Liu's singing of Chinese folk song with such professional quality. I was also surprised by the power of television when I stood for election of my chapter the next day and many people said to me "I saw you singing (the Jaycee Song) last night", then gave me the highest vote among all Vice President candidates.

Our Past JCI World President Senator Jennifer Yu enlightens us with information about the Jaycee movement; Senator Junia Ho gives her advise on civic involvement; Senator Larry Lau and Senator Eddy Wong address the issue of forming a new chapter of HKJCC in 1994; and Senator Peter Kam talks about internationalism. All these articles help broaden our views. From member contributions, we discovered one of our LOM President elected is a poet and that a past LOM President integrates Jayceeism to her daily challenges.

We have included a page of glossary of Jaycee terms for those at lost in Jaycee conversations. Most Jaycees should have no problem with most of the terms. But it is best to know even the obscure ones.

The Jaycee Movement

Senator Jennifer Yu is an internationally recognized outstanding Jaycee. Her heart and vision for the organization won her the support from Jaycees all over the world. Deeply impressed by her leadership, she was successfully elected as the first lady World President in 1988, a great honor and encouragement to all Hong Kong Jaycees.

A Constancy of Junior Chamber's Work

Right from the dawn of the first spark of the Junior chamber movement since 1915, we have seen countless thousands of young people within the age range of 18 to 40, who have passed through the ranks of its membership. Many have made their marks, whether as individuals or collectively, through their work in response to the calls and needs of their times.

In its early stages of formation, Junior Chamber International has been able to swiftly and firmly establish its membership network throughout all corners of the world due to the organization's ability in igniting the enthusiasm of young people in their aspiration for a better community, a better country, a better world, and a better life for all mankind ...

Since its inception, the work of Junior Chamber members has never stopped when on has reached one's own objectives, but has generated a positive cycle of hopes, enthusiasm and needs, which led the way to concrete plans, actions and achievements, which further raised the platform for continuing spirals of higher aspirations and positive attainments in better and higher purposes of life, for advancement of harmony among people, and for improvement of quality of life ...

Such are the legacies of each generation of the Junior Chamber membership! Such are the work inspired and guided by the Creed of Junior Chamber International, across all cultures and boundaries of its membership, through times of tribulation, hope, or despair!

The future is filled with unknown challenges and opportunities as the world faces unprecedented rapid changes. Junior Chamber International offers \its membership the faith to explore these uncharted horizons, and the courage to seek the best interests for all, through their firm commitment to each tenet of their JCI Creed, which reads ...

We believe:
That faith in God gives meaning and purpose to human life;
That the brotherhood of man transcends the sovereignty of nations;
That economic justice can best be won by free men through free enterprise;
That Government should be of laws rather than of men;
That earth's great treasure lies in human personality; and
That service to humanity is the best work of life.

Jaycees and the Government

Senator Junia Ho is widely recognized for being the charismatic walking encyclopedia of Hong Kong Jaycees. She was the Chartered President of Bauhinia Jaycees. She involved actively at the NOM level, serving in a good number of positions, accelerating to be our National President in 1989. Her quest for quality and her heart for Jaycees make her the qualified Chairman for the Long Range Planning Committee. Senator Junia is member of a number of committees including the Commission on Youth, the Committee on Promotion of Civic Education and the Language Course Advisory Committee of City Polytechnic of Hong Kong.

Hong Kong Jaycees have been actively devoting themselves to community development in the past years. Each year, there is a wide variety of community projects launched and their contributions have won wide social recognition. The NOM, together with its 17 local chapters, have quickly shown their support to the Youth Charter by signing as the first 100 subscribers. The NOM has even taken a step further in promoting the Youth Charter and cultivate these ideals to other NOMs during the Hong Kong Congress.

The social environment is changing rapidly and more and more voluntary organizations including student groups emerge to take part in community development. Hong Kong Jaycees needed to conduct a serious review on its role on community development and its involvement in governmental affairs.

Hong Kong Jaycees outstands themselves as a unique organization of versatile and dynamic youth in the age of 21 to 40 who have the same determination to develop ourselves through community service.

In the coming years, the role of Jaycees in the Hong Kong society becomes even more significant. The following directions are suggested for Jaycees:-

(a) To set up a task group to consider social issues and to make timely responses to the government. In fact, the more opinion we raise, the more support and encouragement there would be from the community and government for our organization. This would be a very effective driving force for the general members to always strive themselves to do better.

(b) To initiate more programmes and training to further arouse members' social and civic awareness. Our members would then become a consolidated pool of resources to participate in community affairs with the backup of Jaycees' all rounded training.

(c) To initiate contact with Government officials and district boards to introduce to them the work and mission of Jaycees. It is very important to open more channels to expose our organizations to the community so that people would have a better understanding of the significant achievements made by Jaycees.

(d) To take the lead to support the three levels of election in various ways.

Jaycees have been doing a good job in community development. Yet, a leader should always cope with environmental changes and aim for perfection.

The Chartering of the 18th Chapter

Senator Larry Lau is a Jaycee leader who is full of drive and energy. He was the first Hong Kong Jaycee to attend the Academy Seminar. He served in various position both at LOM and NOM levels. During his national presidency in 1990, a new Club House was purchased due to his great efforts. Besides, he contributed significantly to cultural exchange among China, Hong Kong and Taiwan by arranging a delegation of ROC Jaycees to visit Beijing.

I am delighted and excited that a new Jaycee Chapter is soon to be chartered in Hong Kong! I am delighted because this new chapter, contrary to recent trend, is to be managed by a group of experienced and enthusiastic Jaycees. I am excited for being able to witness its birth, in the capacity of an advisor to its formation.

To charter a new chapter is no easy task. To maintain its momentum and enhance its development is undoubtedly more challenging. Regrettably, over the past decade, we fail to develop strong new chapters within our organization. Time is now for us to review our strategy, consolidate experience and modify our extension plan.

A good start is half success. The start of the 18th Chapter is encouraging. The core group is comprised of experienced and enthusiastic members from a well established chapter. The leadership group looks promising but that will not guarantee success. In order for a Chapter to prosper and develop the care and concern of its general membership is of paramount importance. To generate a sense of care and concern leaders must treat their members friendly and ensure they enjoy staying in the Chapter. Enjoy in Jaycees usually means suitable workload, adequate opportunities and harmonious fellowship. These are often mentioned in Chapter policies but unfortunately the usually end up as empty words; too often we find members either overburden or are never called.

Setting suitable objectives is a key activity to the long term development of a Chapter. Very often, new Chapters either set too aggressive targets or are too conservative. Worst still, laid down objectives are altered from year to year. Sometimes, the leaders change objectives for their personal preference or interest. These are detrimental to the healthy development of a chapter, top priority must be given to setting objectives, and means of achieving these objectives should be carefully considered, and best still, lay down in chapter policies and strategies.

The most alarming phenomenon in recent Jaycees history is lack of successors. In some Chapters, executive committee. members are only having an average of one year Jaycee experience. This is unbelievable but is already a developed trend. To avoid failing prey of such phenomenon it is crucial for the 18th Chapter to formulate a practical system to gloom its leadership cadre. To ensure there will be adequate experience within the Chapter, extension of individual member's Jaycee life must also be carefully deliberated.

To conclude, I wish the 18th Chapter all the best in its formation. I am confident the formation chairman Senator Justin will lead to lay a sound foundation for the long term development of this New Chapter.

Benefit to NOM for a new LOM extension in Hong Kong

Senator Eddy Wong is a fully-dedicated Jaycee. His devotion can be demonstrated by his presence in almost all Jaycee activities. He was the President of Peninsula Jaycees in 1988. He has deeply involved at the National level, including being the National Vice President in 1990, National Executive Vice President in 1991, National President in 1992 and Senator Chairman in 1993.

It has been almost 5 years that the last chapter was affiliated to the Hong Kong Junior Chamber of Commerce. In the past few years, we have many new members joining this organization to seek for personal development opportunities. Indeed, we have plenty of opportunity for members to experience as project chairman, organizing committee members etc. However, for those aggressive and high caliber members, we have to offer more challenging opportunities for them. To encourage them to take up management position in a chapter is one of the way to achieve this objective. For every chapter, there are only one position for President, three to four position for vice presidents and a few for other executive offices. If the chapter has trained up many capable individuals, the competition for these positions is expected to be very keen. Some members may be very capable, but for one or another reason, they may not be interested to compete openly. For us to retain these members' active interest, we have to keep them motivated and occupied. From the human resource point of view, it is wise to extend a new LOM to maximize all the members' potential.

The birth of a new LOM will provide another avenue for the public to know the Jaycee organization. When they launch more meaningful projects, the image of the whole organization will also be enhanced to a great extent. The more LOMs in Hong Kong, the more opportunities for us to organize projects for the betterment of Hong Kong community.

In order to found a strong chapter, all these potential leaders transferred from the existing chapters in Hong Kong have to actively local suitable candidates to join the new LOM. It therefore helps the membership extension work of the NOM. More and more new blood will add into our big family.

It is also helpful to NOM that another new source of support will be coming from this new chapter. Their financial and human resource contribution to NOM is going to ease the tight and tense situation of NOM.

To cultivate a successful new LOM, it is also a great challenge for the NOM officers. They have to whole-heartedly offer their assistance to help them overcome many difficult issues for a smooth running of a new LOM. The kind of training is not available so frequently in Hong Kong. When this new LOM grows up, they will also establish linkage with other overseas LOMs. This will create a broader coverage and bonding of Hong Kong Jaycees and other overseas Jaycees internationally.

Another significant point is that we are going to change our local chapter name from "Jaycees" to "Junior Chamber" in the near future. This new chapter will start to use the name of "Junior Chamber" when it is formed. It gives more familiaration to both members and the public before our mass promotion of name change.

In short, it is an opportune time for Hong Kong Junior Chamber of Commerce to extend another new LOM so as to benefit both our members and the organization.

Internationalism

- Global community through cross-cultural interaction

Senator Peter Kam is an experienced Jaycee. He is known for his creativity in Jaycee projects and vision in the long term development of the organization. His significant contributions to Jaycees includes his service as the President of Victoria Jaycees in 1986, National Hon. Treasurer in 1987, National Vice President in 1989, Ten Outstanding Young Persons Selection Chairman in 1990 and National Executive Vice President in 1991. Senator Peter is a barrister-at-law. He is also an officer of the Royal Hong Kong Regiment.

If developing leaders is what the Jaycees are widely known for, its unique cross-cultural internationalism distinguishes it from most training organizations.

So little do we realize this noble objective of Jayceeism until one actually experiences for himself those uniform but multi-national ceremonies, singing, sharing of views and the feeling of belonging to a same family with foreign young people who are thousands of miles away from their homelands.

Having the experience of participating in a good number of Jaycees' international programmes, as I now recount them, gave me a first hand experience of what "internationalism" really is. Such events not only insure a meaningful experience for the delegates but also creates the means by which relationships can be maintained long after the guests have departed. This enables delegates to sharpen their perspectives, deepen their insights and increase their sensitivities.

As a matter of fact, cross-cultural interactions, by its very nature, is to a large extent a primary force to cultivate mutual understanding, building friendships across the border of political and ideological differences.

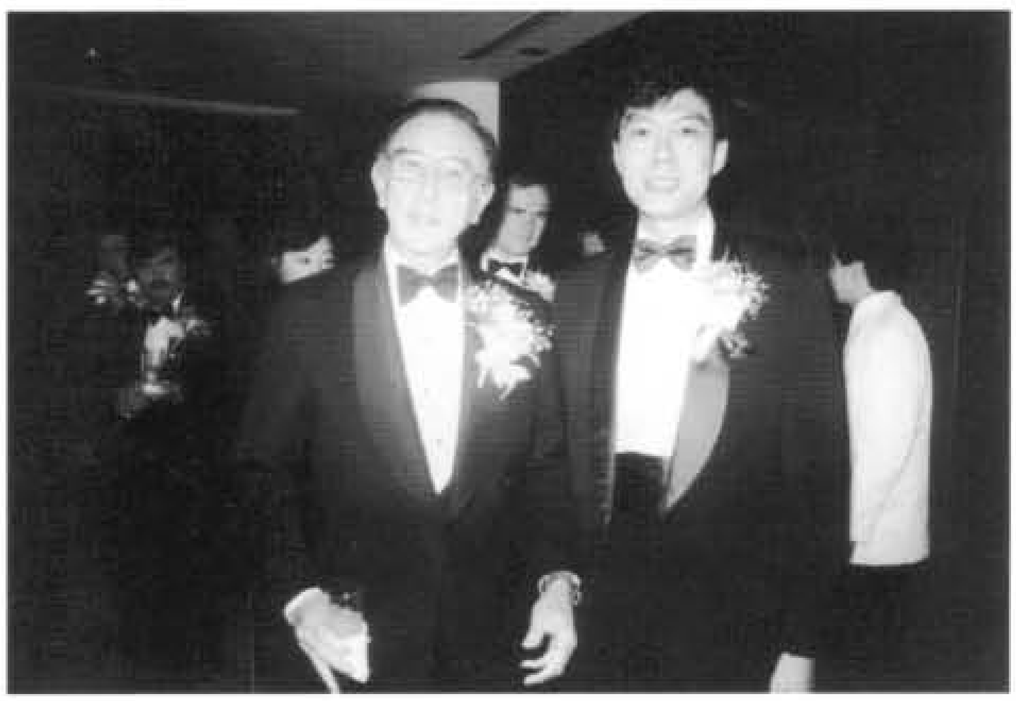

In achieving a less dangerous, more open and cooperative world so that humanity can survive, the responsibility fall onto diplomats and political leaders, but the success of such ideal rely more on the citizens, students, workers and professionals as individuals and as members of organizations. It depends on their creativity and their sensitivity, on their ability and willingness to exchange experience and perspectives to work on common problems, to develop a vested interest in good relations at all levels, transnationally and internationally.

It is gratifying to witness an increasing emphasis on cultural exchange by the Hong Kong Jaycees. Such exchanges have an ideal to move towards a global community. By serving as a goodwill ambassador for their countries, the Jaycees make a small-but significant contribution towards international understanding which signifies the transnational human communication in the age of global interdependence.

I sincerely encourage all fellow members to actively take part in conferences, congresses and all cultural programmes offered by Jaycees. Treasure the experience and remember:-

"We are not called upon to create the brotherhood of man, but merely to recognize the fact that it exists!"

Ballad On "Jigsaw Puzzle 1993"
Tribute to the Hong Kong World Congress

I have this jigsaw puzzle in my house,
silver framed and with picture
formed of thousand pieces
put together.

Hundreds of my fellows whom
on countless day and night
and night and day
struggled through the odd pieces
until the last bits
fit into their places.

My friends
you have worked this far
to let the whole world witness
Our Power
Our Force
and Our Potency.

Nothing matters now
our tons of sweat and tears
have turned the jigsaw puzzle to complete
with picture
launches a thousand stories.

This timeless piece of art
contains a part of you and
a part of me
now hangs perenially in the hearts
of all whom took part.

Home Hospitality

Seven O'clock, only a few delegates showed up. I started worry about whether my coach could launch because there was a long queue of seventeen buses waiting for nearly 800 delegates from the wo4rld in order to show them our home hospitality. At the same time, a total of 40 coordinators & student helpers coming from the HKJC & AIESEC couldn't wait any longer for the programme to start. Unexpectedly, after 15 minutes, all delegates rushed out form the subway of the railway station and at last, I saw the first coach's engine was started and so did everybody.

I asked some of the delegates what did they expect from tonight. Most of them would like to speak to the local people and feel the atmosphere of local family as well as see something beyond tourism scence, without business mind. One delegate hoping the host would invite hom to a resturant for dinner. Althought I can't tell whether his will will become true, definitely, all faimilies should prepare some kinds of chinese food which are very different in his home country.

Only 20 minutes, we have reached Telford Graden which is situated above the depot of Kowloon Bay MTR station as it was desribed. A community hall was prepared for the receiving of the delegates. All family Rosts & the delegates knew each other in the hall and then the delegates follow their hosts so as to spend their memorable nights.

During the night, Mrs Poon the coordinator of Telford Garden's families and the Secretary of the owner's Committee brought me on by one to all the participated families therefore I could take some photos & report for the World Congress News. I would like to take this opportunity to thank for their kind assistance, othwise, I could not share the hospitality that it should be given to the delegates. One of the host told me that it was a good expereience for him to know & see different people from different cultures & countries. It was really worthwhile for him to do so.

The nost sensational time came, when all delegates gathered again in the hall, Mr. Philip Ah Chuen (JCI Senator) from Mauritus requests all delegates show the same hospitality if the family can someday be stayed in their home countries, won the applause of the delegates.

The only one from the 400 delegates of R.O.C. who joined the home hospitality Miss Chen feel sorry for the rest 399 that they could not come to join her, otherwise, they could find different of living between Hong Kong & Taipei, although the culture seens the same. Before off, one delegates told me that the home hospitality programe was organised as well as sucessfully.

"A Revealing Expedition"

Some years ago, I heard of Mount Kinabalu for the first time when Past President of the Victoria Jaycees Anita To spoke of her climb to the mountain. Although the subject matter was only brought up in passing, her facial expression suggested that it was a difficult climb and once was more than enough. Since then, I had been drawn to the myth of Mt. Kinabalu.

In early Dec. 1993, I eventually took of to Kota Kinabalu for the mountain trek. The expedition started on the 4 Dec., at about 8:30 am. from the Kinabalu National Park which is 1560 metres above sea-level. Fellow Jayceette Elaine Cheung joined me on this expedition. Both of us knew that the climb could be physically strenuous, but we never really discussed whether we could make it to the summit. Neither of us had similar experience before nor were we sure about our ability to survive the trek. I could not read Elaine's mind and dared not bring the subject up because I had doubt about my physical strength to take on the 2-day one-night journey. Afterall, Mt. Kinabalu is 4101 metres (13455 ft.) above sea-level and the summit trail could be tough at certain height.

As we came closer to the hour for starting the climb, my urge to take on the expedition seemed fading and in the back of my mind, I said "Let's go home". Fear and lack of confidence were what I had experienced at that time, but I could not spell it out as I was too conceited to admit my weaknesses. Now that I recalled this situation, I saw a fool in myself. I should have shared my feelings with Elaine and perhaps we could develop mutual support to each other and completed the journey. Haven't we all once acted foolishly in a same way when undertaking JC assignments? Haven't we in one occasion or another suffered from submitting to our own weaknesses? The lesson I learnt from this experience was that we must reach out for help to bring out the better part of ourselves.

The trail began at 1829 metres (6000 ft.) following the crest of a narrow ridge that dipped down onto the main slopes of Kinabalu itself. The beginning part of the journey was not too difficult and hence we speed up ignoring the fact that we could use up our energy much faster than expected. In the end, we might need more time to reach the guest house. Indeed, we took two extra hours, i.e. a total of six hours to get to the guest house feeling exhausted. It took us that long because a man in our team had cramps in both legs and we had to slow down in the latter part of the trail. I was lucky not to have suffered from any cramps, but I had difficulties in breathing when I picked up my pace along the steep slopes. I was too eager to race against time hoping to break records and had not thought of the consequences, the same way some of us taking too great a risk to gain victory in the Jaycee arena. A slow start could accelerate progress and so, why rush?

At the guest house which was at 3345 metres above sea level, we were bewitched by the scenic view of mountain tops being clouded-capped and the blue sky turing reddish black near sunset. Farther away in the sky, layers of clouds formed a mirage of castle guarded by chariots. For a city-dweller like me, this was a magnificent sight and I wished it could last. Of course, it didn't. When darkness came around 6:00 pm., it was almost bed time as the last part of our expedition began at 3:00 am. the next morning.

The summit climb was the most difficult and dangerous part because from 3345 metres upwards, we had to climb along granite slopes holding onto a rope in the dark. Sometimes, the slopes got so steep that we needed to encourage our partners to move up to make sure none would quit. The worst part was that the summit itself was not visible regardless the fact that we had passed one peak after another. We almost lost hope as we moved slowly upwards against strong winds and freezing temperature to find yet another peak was before us.

Notwithstanding the height and weather condition, I made it to the summit borrowing from my experience in the first day of the expedition. I supposed part of my Jaycee training had also prepared me mentally to face rather than avoiding a difficult task. I might have pushed myself too far beyond my limits in this exercise, but I felt great for being able to fulfill a wish and for realizing that mental and physical strength are complementary. We need both to deal with adversities. I had also came to learn that while it took a lot of courage for one to work his/her way up to the top, it demanded more than sheer guts to withstand the fear of standing up there alone. The thought of descending from the summit also added to one's anxiety when no-one knew how long it would take. For me, the descent was more strenuous than the ascent as one slip could cost life. I could hardly walk down any staircase or raise my legs for the next few days after the expedition ended.

The Mt. Kinabalu expedition was physically strenuous, but on balance, it was spiritually revealing. I may not return for a second visit in the near future, but I would recommend others to give it a try.

Editor's Note

The Spirit of <<Harbour Lights>>

Being in charge of the official newsletter of HKJCC, I have dreamed of making <<Harbour Lights>> an all encompassing magazine such as adding including project promotion and event schedule. I saw repetition of material in Jaycee publications which I firmly believe should belong to <<Harbour Lights>>. However, deep in my heart I wish otherwise so that I can get by with minimal effort. When people sent in material according to my request and expected to see them appear in time, I felt the pressure and hoped I haven't made any ambitious statement about the publication.

As time went by, it took longer and longer to finish an issue. I was lonely and depressed. By October, I knew from experience that the holiday mood in December may kill the last issue. Meeting bottomline became so tiring that the spirit of this publication is out of the question. After a few nightmares, it dawned on me early one morning that there should be a "Sourvenir Issue" of <<Harbour Lights>> to include all the significant events in 1993 such as the World Congress and the recent TV Program. Then before breakfast, I have a draft proposal for maybe the most expensive newsletter ever for HKJCC. I was so excited that I sent it out to my supervising officer without considering the resulting workload. What happened afterwards were beyond my control.

The first OC meeting was conducted so cheerfully and everybody enjoyed it so much that I wondered why I didn't work with them earlier. In two weekends, we performed the entry and editing. I saw them make countless phone calls to check details and worked out omitted material. The spirit of <<Harbour Lights>> inspired us to give our most and a clear sense of direction guided everybody to do whatever appropriate to make it an issue with solid material worth keeping. At that time, I realised the spirit of our official publication was in command. We only helped its realisation in tangible form and are rewarded with joy and excitment through this work.

This work has been inspired by other publications about Jaycees. Peggy Yen's <<Training Handbook 1991>> tells you everything about "The JC Way" and "Jayceeism" which I have copies in both home and office and still want more for my friends. Jennifer Cheng's five issues of <<Congress News>> were professionally prepared in record time. I liked it so much that now I seized her personal copy. Caroline Keung's books and her recent <<Jaycees, Your Way To Excel>> bring Jayceeism to the public. Her donation to HKJCC through the selling of this book is the major financial source of this Souvenir Issue.

I like the idea of a book supporting another book. Its like the relationship between parents and offsprings. Ideally, the offsprings build upon previous strengths to become better whereas old traditions and spirits are preserved. Because of this, I have prepared this Souvenir Issue with a lot of love and care and hope that we can finance even better Jaycee publications in the future through the selling of this one. I know from their serious manner that other people contributing to this issue have also poured in their love and care.

Many people have contributed time, material, and resources to make this one of the most information packed publication for Hong Kong Junior Chamber of Commerce. Thanking them one by one here is impossible and also not enough. Suffice to say that the Organising Committee of this issue is presented as Publisher Information next to the Table of Contents instead of a separate page for the OC chart.
People makes news and news makes newsletter. This Souvenir Issue is possible because of the great works done by Jaycees in 1993 and in the past. Hence, through this short note, I would like to send my gratitude to everybody that launched various meaningful projects and won glories for the organisation. Every mention of a name or a project represent many days of hard work. Just the MET projects represent over a century (several hundred people of several months each) of dedication in serving the community. We are even more indebted to those who worked with dedication without requiring any recognition.
