THE JAYCEE CREED

We believe:
That faith in God gives meaning
and purpose to human life,
That the brotherhood of man
transcends the sovereignty of nations;
That economic justice can best be won
by free man through free enterprise;
That govenment should be of laws
rather than of men;
That earth's great treasure
lies in human personality;
And that service to humanity
is the best work of life.

Message from Guest of Honour

It gives me great pleasure to extend to the Kowloon Jaycees my warmest congratulations on their 30th Anniversary.

Thirty years is a significant milestone and, as a non-profit making leadership development organisation, Kowloon Jaycees has a truly impressive record of devotion to the betterment of the community. The large number and variety of projects organised by members reflect both the quality of their leadership and the warmth of their social concern.

I wish the Kowloon Jaycees every success in their continuing endeavours in serving the community.

Director-General of Trade

Message from President Junior Chamber International

As the 50th President of Junior Chamber International, an ever-growing organization, it is my great pleasure and honor to extend my warmest message of greetings to the members of the Kowloon Jaycees. It was with great pleasure that I learned that you were about to celebrate 30 years of service and devotion to your community and our beloved organization. Imagine! 30 years in an organization that is 50 years old. You are truly an inspiration to Junior Chamber organizations around the world.

We have just celebrated 50 years of service to our local communities and to people worldwide. What wonderful changes we have seen in our world in the past few years - welcoming new countries from Eastern Europe into our beloved organization, while witnessing a wall that once divided a nation come down. May we continue to grow in our kindness and charity to other countries and see true harmony everywhere. There are still so many horizons to be explored.

As we embark on our next 50 years, my presidential emphasis is to stay One Step Ahead in all our endeavors. It is important that we remain One Step Ahead in service to our communities, training, planning, communications, marketing growth and development, and community projects. We must anticipate needs, seek solutions, and endeavor to excel in all our projects.

It is essential that we remain One Step Ahead in 1995, working together to remind the world of the importance of maintaining a healthy environment, restoring economic development, and ensuring the future of children.

Continue the fine work of

One Step Ahead in 1995!

Congratulations on your 30th Anniversary and I an happy to be invited as part of your celebration.

30 years of existence is certainly a long road of achievements. Through these years, members would have come and go, some 'die hard' members would still be around, and there would be numerous of outstanding members developed, and high achieving awards produced. I note with interest the many projects carried out by your Chapter through the years, for example, the Ten Outstanding Young Persons Award which your LOM is a pioneering, caring for the children of our less fortunate neighbours, taking interest in the road safety, a continuous project to cultivate our youth on creativity – Young Scientist. These are just a few mentioned ones. But these few have indeed bring out the BEST in you. I must once again, congratulate you on your achievements and do continue to strive to be EXCELLENT and a Step Ahead in all you do.

30th Anniversary

Message from
Kowloon Jaycees President

It is my honour to express my warmest welcome to all of you for attending our 30th Anniversary celebration.

Throughout the past years, in pursuance of the Jaycees Creed, we have been striving to excel both in individual achievements and contribution to the community. Numerous projects have been launched, to name a few: we are the pioneers in launching the project Ten Outstanding Young Persons Selection which is now adopted as the NOM's annual project; the project "Young Scientist Award" has helped to encourage scientific creativity of the youth; the project "3A" and "3C" tailor made for talented children are the pioneer of its kind in Hong Kong; on-going project "Happy Manager" provides training for the young executives; health care project series serve to awaken the public concern of personal health, two of which we have started with are "Our Bone, We Care" and "Osteoporosis Highlight".

In enhancing the brotherhood of men, efforts are put forth in securing friendships over the world. For instance, six sisterhood pacts were signed with LOMs namely in the Philippines, ROC, Singapore, Malaysia, Japan and Macau.

Looking back to these achievements, I would like to express my gratefulness to our predecessors, for without their efforts; the Kowloon Jaycees would never achieve such a remarkable status as it is today

On the outlook, we believe that earth's great treasure lies in human personality and service to humanity is the best work of life. Preparing and members to play their part in making Hong Kong a successful and dynamic society has always been our mission. With your cooperation, we deem that we can face any challenges in the future especially due to the uncertainties under the transition period.

Finally, I wish to extend my gratitude to Mr. & Mrs. J.A. Miller JP for gracing this occasion by being our Guest of Honour. I would like to show my deepest appreciation to all the Kowloon Jaycees members and supporters who have contributed to our success, in particular, the organising committee for their devotion and hardwork in making tonight such a memorable occasion.

I wish all of you a joyous evening!

Message From Kowloon Jaycees Past President

Charter President

Thirty years is a long time.

I look back to 1965 as it then was. We decided that in the interests of the long term growth of the Jaycees in Hong Kong, a second Chapter, the Kowloon Jaycees, should be formed.

A small band of Jaycees, old and new, set about this task. The long term achievements and success of this Chapter are very apparent for all to see today.

To me, the many successful projects carried out by our Jaycees are merely secondary. What really endures are the friendships made, the training received and the spirit of civic responsibility the Jaycee movement fosters.

All good wishes to the Kowloon Jaycees on this important milestone.

Jim Silva
Charter President

Past President 1971

I have much pleasure to send my congratulations and best wishes to President Queenie and members of the Kowloon Jaycees on the occasion of the 30th Anniversary celebration.

The Jaycee movement does not only provide opportunities for us to service the community, train ourselves and practice management, but also offers tremendous and unique business opportunities as well as opportunities for making friends both locally and internationally. This has been my experience, which I value and I am sure more and more members will feel the same way as our chapter thrives from year to year.

An eventful and memorable 30 years has passed the inception of the Kowloon Jaycees in 1965, during which time our members have worked together purposefully and with dedication for our community.

True to the aspiration of our founders and as a Chapter of the HKJC, we have endeavoured to bring together gifted individuals whose collective energies could make an ever greater impact for the good of Hong Kong. Kowloon Jaycees is like an ever-widening circles; as with each new member, we gain in knowledge, experience, enthusiasm and commitment, so as to better serve our community. Under the leadership of President Queenie Lo, I am confident that Kowloon Jaycees will expand the scope of its activities and service in the year ahead.
