BRIEF HISTORY OF KOREA JUNIOR CHAMBER, INC.

It has been said as a common sense that history gives us trial as well as hope. And also it is reflected in 44 years of Korea JC history.

1951 was the second year of Korean Civil War which had been broken out by the North Communist on June 25th, 1950.
The war completely tore down the cities and villages all around the country. During the war, hundreds of thousands of ethnic Korean people were tortured and killed. In addition to those killings, over 50,000 UN troops, who participated in the war to prevent Communists from invading Korea, to keep freedom and peace in this peninsula, were victimized.
In this chaotic situation, JC movement was started when Marnning A. Spottswood, who was the member of Mobile Junior Chamber in USJCC and an United States Armed Force officer, met a Korean young man named Charles Suh during his stationing in Pyongtaek, 100 miles south of Seoul.
At the time, they were both deeply interested in valuable movement which could be activated by young people to save the country placed in depression by the fratricidal tragedy.
They organized a group of young men to serve to the people who were devastated mentally as well as physically.
Marnning brought JC history, creed and JC Constitution to them and taught them what JC is all about and how effectively the movement affects the people positively.

On Feb. 4th, 1952, Korea Junior Chamber was affiliated with Junior Chamber International as a national JC organization.
For the first time when Korea JC was recognized by JCI, it had only 4 LOMs and 80 individual members.
Even though the fact that the structure of Korea JC was so weak, JC member's devotion to rebuild the war-torn country made a remarkable progress.
Korea JC's slogan "Reconstruct Country through JC Movement", since initiated in early 50's, has been a symbolic word for JC to make everything happen.
Since starting from standing on the ruins of Korean War, Korea Junior Chamber, now, celebrates its 44th anniversary, being the third largest membership state in JCI.
And further, it will surely be one of the strongest NOMs in the future, being based on our past holy JC ideology.
