The JCI Creed

We believe:

That faith in God gives meaning and purpose to human life;

That the brotherhood of man transcends the sovereignty of nations;

That economic justice can best be won by free men through free enterprise;

That Government should be of laws rather than of men;

That earth's great treasure lies in human personality; and

That service to humanity is the best work of life.

History of the Creed

The year was 1946; the place, Milwaukee, Wisconsin, U.S.A.; the event, the United States Junior Chamber National Convention. Visitors came form Canada, Mexico, South America, Europe and the Philippine Islands. It was here that the idea of a JCI Creed was born.

Past President of the Phio Junior Chamber and National Vice President of the United States Junior Chamber C. William Brownfield realized at this convention that the organization did not have a Creed. He was inspired by the devotion of Junior Chamber members "to the purpose of serving mankind in a thousand different ways, right down at the grass roots where freedom lives or dies."

Brownfield saw Junior Chamber as "the potential for a new force in the world, one capable of changing the balance between victory or defeat for our chosen way of life in a time of crisis."

The actual writing of the Creed took place in July 1946 during a drive from Brownfield's hometown of Columbus, Phio, to his coal mine in New Lexington, a journey of about 75 minutes. He started that journey with a firm conviction in his mind to work on the Creed. It was during that trip that the following words came to mind and were put on paper:

The brotherhood of man transcends the sovereignty of nations.

Economic justice can best be won by free men through free enterprise.

Government should be of laws rather than of men.

Earth's great treasure lies in human personality.

Service to humanity is the best work of life.

In 1950 the first line, "We believe that faith in God gives meaning and purpose to human life." was added.

Since the Creed was written, Junior Chamber members all over the world recite the Creed at local, national and internationl meetings and functions. During that time there has been much discussion of the interpretation of the Creed. The author himself said, "Every Member is free to interpret the Creed in the light of his own conscience."

Message from National President

Senator Tony Chan

August and September were hard months. I've attended four memorial services for families of fellow JCs, and one service for a past Chapter President. The moments were sad but to witness the passing away of dear ones are inevitable experience as we grow old. Getting older and wiser seem to be twins but mindful that we must not take things too much for granted. I've picked up from one of our seasoned trainers that unless our "cups" are emptied, they cannot be refilled with fresh water. Without fresh water lives wither. We must hence prepare ourselves to learn by unlearning and therefore able to make age and wisdom inseparable partners.

The times have been tough for the HKJCs. Our economy still look dim. Unemployment and job security issues seem forever hot on the reports. The atmosphere is restless as people feel they have lost control of their futures. They work hard to prove themselves valuable employees, and work even harder in the name of corporate down-sizings. The result is the sacrifice of rest times, family times and of course JC times. We all share the same difficulties of finding time and to prioritize its usage. However, as we have committed to serve, we look for ways to achieve. We improve efficiency by better usage of the net, the streamlining of projects (of which the 2002 National Convention is an excellent example), and more collaboration with external resources. We have lived up to our promises, and have broken the record number of members attending the ASPAC held earlier in Sendai. I've searched for answers to the miracles made. I would think that it is the mission of the Junior Chamber "to create positive changes" that we find it worthwhile, and have made our wills strong as steel.

With limited resources in so many respects, we managed to make the impossible possible. Is it not a proud message to the society that in the adversities we still survive in good shape? Is it not meaningful to demonstrate to our younger generation that with a will to succeed you will find ways to succeed? This has reminded me of Robert Schuller's saying "Tough times never last, tough people do". I believe that everyone who has undergone a year of service in this beloved organization will become a tougher and a better person, and it is the good seeds which the Junior Chamber has been sowing diligently for so many years have helped make this world a better place to live.

Career Advancement - JC can do it

PNP = Past National President Senator Andrew Wong
R = Reporter Polly Chow

1982 National President Andrew C. W. Wong has been with the Customs and Excise Department of the Hong Kong Government for 34 years. Through a series of promotion over the period, he became one of the directorate officers of the Department in 1998 holding the post of Head of Trade Controls responsible for the administration and enforcement of various trade controls systems and the management of Trade Controls Officer grade.

PNP Andrew received Bronze Bauhinia Star awarded by the Hong Kong SAR Government in July 2002 for the contributions he made in different areas of endeavour.

PNP Andrew joined Kowloon Junior Chamber (KJC) in 1977 and was the KJC President in 1980. In 1982, PNP Andrew was elected as the National President of Hong Kong Junior Chamber (HKJC) and awarded Senatorship in the same year.

PNP Andrew has actively participated in JC activities by taking up positions in different areas including Director, TOYP Chairman, National Convention Director, APDC Councillor, Presidential Advisor of KJC and also of Macau JC, HKJC Board of Trustees Chairman and HKJC Associate Members Club Chairman. The awards received by PNP Andrew including Most Promising New Member and Most Outstanding Ex-Com Members, etc.

It's fortunate to have an opportunity to interview PNP Andrew to find out how JC experience had helped him in individual development and career advancement.

R: In what way have you changed after joining JC?

PNP: Joining JC was a breakthrough of my life. JC life made my potential into full play. I was thoroughly remolded. Before joining JC, I was a quiet person and my exposure was only restricted to my department and the government. My personal network was limited and I was lack of community experience. I started my JC life from prospective member, then proceed to be a full member, board member, Chapter President and then the National President. I obtained overall training in the five areas of opportunities in JC including individual, community, international, management and business. I obtained deep knowledge of JC organization. The JC challenge made me develop strong public speaking ability. I was impervious to fear when I delivered speech in front of a large audience. I could cope with impromptu speech. Gradually I could successfully express my opinion and convince others to accept my views. My network was expanded and I could communicate with other people in many topics. My management and leadership skills were successfully developed.

R: How could JC experience help in your career advancement?

PNP: JC experience made me know the right time to express myself. I learnt different knowledge including communication skill and motivation technique. I had the experience of holding press conference. I had an expanded personal network. My vision and strategic management were strengthened. All of these made me more equipped than my colleagues. Moreover, JC was a miniature of society. You had to face competition and politics in JC. JC experience made me know how to avoid being a victim of politics and also how to win over the competitors. When I applied the practical training and knowledge from JC into my career, it distinguish me from others and won continuous promotion opportunities. Now I am one of the directorate officers of the Government supervising a department of 500 subordinates performing the enforcement duties of Customs & Excise Department.

R: What would you think the meaning of the Bronze Bauhinia Star (BBS) that the Hong Kong SAR Government awarded to you is ?

PNP: I thought BBS was a recognition for my career achievement and also my contribution to the community.

R: What is your memorable achievement in your JC life?

PNP: I was proud of the development of Macau Junior Chamber. In 1983, PNP Sonny Yu and I went to Macau to give internal training to Macau young people. We taught them management skill, leadership technique, knowledge of JC organization, protocols and CD cycle. We held a three full days Pilot JCI Training for Trainers program to them. In 1984, the first Macau JC "泛澳青年商會" was established which was affiliated to Hong Kong Junior Chamber. In 1988, second Macau JC "濠江青年商會" was established. From then on Macau JC became

a NOM of JCI. I had been the advisor of Macau JC from 1984 to 1994. At that time, I went to Macau 2 to 3 nights every week to have meetings with the young JCs. The then young Macau JCs not only contributed themselves in JC activities, they also served as Government officials. Now, some of them had become the top level Government officers including the CEO of Macau SAR Government.

R: Could you give some suggestions to Hong Kong Junior Chamber?

PNP: Nowadays, we are faced with keen external competition. We have to enhance the publicity of HKJC. We have to package and strengthen successful JC events and projects for effective promotion. We have to differentiate our organization from other organizations. Because of the present economic environment, we have to find the economic way to organize functions and activities. We have to offer a shorter learning period to new members say 3 years, so that new members could find the prompt value of JC. Should members find JC life fruitful, they would be contributing their best to JC.

R: Would you suggest fresh graduate to join JC?

PNP: If fresh graduate has no financial problem, it would be worth it for them to join JC since JC training was more practical than others. These practical training would be helpful to their career development.

R: Could you say something to encourage our members?

PNP: JC training and experience could help us develop our potentials and enhance our friendship and personal network. However, in order to maximise the value, we have to participate. Participation is very important. Member should not only attend functions but also have to involve in organizing projects and activities for learning by doing and benefit from the organizing experience. When you participate, you can develop strong sense of belongings.

Unforgettable Experience

The week of July 22 spent in Japan Fujisawa for 15th JCI Academy is not merely a week in my life, it is (and will be) one of the most memorable experience I had.

The Program gathered some 80 potential, selected, future Presidents of JC National Organizations, and 50 Leaders of Japanese Communities. Each one attended the Academy as a person with their culture, wishes, and plans. The Academy made us all CARE, DARE and SHARE the same SPIRIT, to be better persons, performing leaders, real entrepreneurs in actions.

Albert HIRIBARRONDO, the 1992 World President, was our Course Leader. His charisma is most marked amongst the JCI leaders. Ever since he offered me the membership pin when I was inducted some 10 years ago, he has always been my idol. Now, I had come to him to receive the "booster" for my JC career and I return fully charged.

Meet my groupmates from Japan, Puerto Rico, Ireland, Nepal and Hungary.

The exchange of ideas and friendship amongst Academicians during the week was most invaluable. We had also lived up to the title of Global Networker by practising continual exchange via the web. The Academy is only the beginning!

Dragon 100 Young Chinese leaders Forum 2002

I am glad to be nominated to attend this phenomenon event. More than 100 delegates showing strong leadership skills, academic prowess and a commitment to the community, including those helpful staff from Youth Federation of Hong Kong come to attend a Forum. We discuss the relevant and pertinent global issues of the day, and this were gathered from 15 countries leaders which were coming from Australia, Austria, China, Canada, China, Hong Kong, Indonesia, Japan, Malaysia, Singapore, Taiwan, Thailand, The Philippines, Trinidad-Tobago, U.K. and U.S.A. We had spent 8 days together, with the first 3 days programme in Hong Kong and the rest in Shanghai through education, exploration and exchange. Besides sight seeing and tasting delicious Shanghainese food, most importantly, we had discussed "Opportunities in China: A Vision for a Shared Future". There were 3 breakout sessions including economic, technological, socio-cultural and environmental challenges. I found that even though all delegates are from Chinese origin, but because we were brought up and educated in different places, our values and beliefs quite varies. Yet we all filled with 'the blood of dragon', speaking the same language (except different dialect) and using the same utensils to eat - chopsticks. We wrap up with laughter and tears in the farewell party held at the Art Centre of Hong Kong. Platform had been set for meeting, sharing and discussing, to generate synergy among the delegates in the future, to work together for the betterment of their societies. For more information of this programme, please visit www.dragonfoundation.net. Hope to see you next year in Beijing.
